

# Automotive Shelving

*Get your shop organized and more efficient!*

*Tennsco's Automotive Shelving provides a highly versatile system for efficiently storing automobile parts. In no time at all you can eliminate cluttered aisles, gain valuable floor space, and enjoy an orderly storage system tailored to fit your needs.*

*Optional dividers let you instantly create customized open shelving for quick and easy access to various-sized items. Handy bin boxes easily slide in and out to keep small, loose parts separated and readily available.*

*You'll appreciate many other details, too. All units are constructed of medium-gauge rolled steel and come standard with full-height backs to provide extra strength. End panels are bolted together either side-by-side or back-to-back for added sturdiness. The slide-in shelf and one-piece base and bottom shelf make assembly simple.*

## Configured To Fit Your Needs!

Tennsco's Automotive Shelving system can be easily modified as your needs change and grow, since old components can be reconfigured and new ones added.

What's more, it's a simple matter to rearrange units since each is freestanding, with its own uprights.

And to give the units a clean, sleek look, we've designed solid piece decorative end panels that cover the uprights.

Available in two cabinet heights: 42" and 84".

### Shelf Dividers

Choose from three sizes of shelf dividers: 3", 4½" and 6" high. Each divider is fully adjustable horizontally and comes standard with a label holder. All edges are rounded, so they won't snag or tear merchandise.

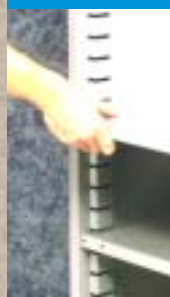

### Decorative End Panels

Decorative solid end panels fit flush against upright, adding strength to the unit and creating a smooth, finished appearance.

### Label Holders

Full-width shelf edge label holders take only an instant to snap on. Place your labels anywhere on the holder.

### Easy Adjustability

Shelves slide in easily from the front and feature a safety catch keeping them firmly in place. Easily adjusted every 1½", with no need of bolts or clips.

## A Word About Tennsco

Tennsco Corp., headquartered in Dickson, Tennessee, began operations in 1962. Today, Tennsco, is an industry leader with over 1.4 million square feet of manufacturing and warehouse space in six facilities. Tennsco offers a wide variety of filing and storage systems, steel office furniture, industrial and institutional shelving, lockers and shop equipment.

Medium Grey

All Automotive Shelving is painted with a tough, long lasting, epoxy powder finish to ensure years of rugged use.

The finish shown to the left is only representative of the actual finish. If greater accuracy is required contact your local Tennsco dealer for additional information.
