

ASSEMBLY INSTRUCTIONS & PARTS MANUAL

Heavy-Duty Reinforced High Capacity Shelving

**Models: RXHS-962484, RXHS-962496,
RXHS-963684, RXHS-963696**

RETAIN INSTRUCTIONS FOR FUTURE REFERENCE

LOAD CAPACITIES PER SHELF LEVEL *	
UNIT SIZE	WT. CAPACITY
96w x 24d	2600 lbs.
96w x 36d	2600 lbs.

*Total Unit Capacity not to exceed 13,000 lbs.

Extra shelf levels are also available (RXHS-wvdd).

GENERAL SAFETY INFORMATION

Some parts may have sharp edges. CARE must be taken when handling various pieces to avoid injury. For safety, wear a pair of work gloves when assembling or performing any maintenance on the unit.

LIMITED WARRANTY

Tennsco warrants goods purchased hereunder to be free of defects in materials and workmanship for a period of one (1) year from the date of shipment, hereunder. This warranty shall not apply in the event goods are damaged as a result of misuse, abuse, neglect, accident, improper application, modification or repair by persons not authorized by Seller, where goods are damaged during shipment, or where the date stamps on the goods have been defaced, modified or removed. UNLESS CONSIDERED UNENFORCEABLE OR UNLAWFUL UNDER APPLICABLE LAW:

- a. ALL IMPLIED WARRANTIES, INCLUDING BUT NOT LIMITED TO WARRANTIES OR MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY EXCLUDED;
- b. BUYERS REMEDY, IF ANY, FOR ANY DEFECTIVE GOODS SHALL BE LIMITED TO A REFUND BY SELLER OR REPLACEMENT OF THE GOODS AT SELLER'S OPTION, AND SHALL IN NO EVENT INCLUDE DAMAGES OF ANY KIND, WHETHER INCIDENTAL, CONSEQUENTIAL OR OTHERWISE.

NO GOODS ACCEPTED FOR RETURN WITHOUT PRIOR APPROVAL. Seller shall have the right to inspect any goods claimed to be defective at Buyers place of business or require Buyer to return the goods to Seller for inspection on Seller's premises. Transportation charges covering returned goods will be borne by Seller only if such goods are proven to be defective, are covered by this warranty and are returned within the warranty period stated above.

ASSEMBLY OF HEAVY-DUTY HIGH CAPACITY SHELVING

Tools Needed: A rubber mallet for seating the shelf supports into the uprights.
Two people are recommended for assembly. Approximate assembly time: 35-45 minutes per section.

The reference numbers used throughout this sheet refer to the illustration on the back cover.
This is to help you to identify the various parts as they are mentioned.

1. With help from an associate, or using a wall for support, create a unit end by connecting two SUR uprights together (Ref. No. 1) with two front-to-back end shelf supports (Ref. No. 2), one at the top and one at the bottom. Be sure the supports are fully seated in the slots. Repeat to construct a second unit end.

2. Next, connect the two unit ends with two LRA left-to-right shelf supports (Ref. No. 3) at the bottom and one LRC left-to-right shelf support (Ref. No. 4) at the top, temporarily leaving off one of the top left-to-right supports.

NOTE: The two LRA supports at the bottom have no return flange on the bottom edge, while the LRC support have a return flange at both the top and bottom.

3. Attach three front-to-back center shelf supports (Ref. No. 5) by inserting the deck support keyhole slots over the rivets on the supports and tapping them firmly into place.

4. Lay the bottom steel decking (Ref. No. 6) on the shelf supports so that the front and back edges overlap the front and back shelf supports.

5. Attach shelf supports at the next desired shelf level. Once the shelf supports are in place, attach three front-to-back center shelf supports as you did in step 3. Lower the steel decking into place, as described in step 4.

NOTE: Every fourth slot in the uprights has a flat top to help visually locate the supports.

6. Once the decking is in place, secure it to the shelf supports with six sets of 1/4-20 x 5/8 bolts and nuts (Ref. No. 6). Do this by placing one bolt through each hole in the front and rear of the shelf, making sure the bolt goes through the shelf and shelf supports as shown below. Tighten securely.

NOTE: Be sure to bolt both the front and rear of each shelf. This requires six bolts per shelf.

NOTE: Bolts are not needed to secure the deck supports on the bottom shelf because it rests on the floor. All other levels require these bolts to achieve maximum load capacities.

7. Attach the remaining shelf supports and decking at the desired shelf levels, completing one level at a time.

NOTE: Once all but the top shelf are in place, attach the remaining left-to-right shelf support at the top level.

8. After attaching the top shelf and securing it with six sets of bolts, your die rack unit is fully assembled and ready for use.

REPLACEMENT PARTS

REF. NO.	DESCRIPTION	QTY.	PART NUMBERS			
			RXHS-962484	RXHS-963684	RXHS-962496	RXHS-963696
1	Heavy Upright Post	4	SUR-84	SUR-84	SUR-96	SUR-96
2	Front-to-Back End Shelf Support	10	LRA-24	LRA-36G	LRA-24	LRA-36G
3	LRA Left-to-Right Shelf Support	2	LRA-96	LRA-96	LRA-96	LRA-96
