

Fixed Shelf File (Model FSF-78) Specifications

Material: Fixed Shelf Files, as well as all Tennsco Products, are fabricated of high quality, cold rolled carbon steel, free of scale or rust, and fully pickled. Exposed edges, corners, and surface areas are free of sharp edges and all workmanship is of the highest quality as measured by the industry.

Finish: All steel components shall be thoroughly cleaned and phosphatized for rust resistance in a five-stage pre-treatment process. A high grade of polyester/epoxy powder paint is to be applied electrostatically with a gloss reading of between 55 and 65. The finish shall have a salt spray rating of 250 hours or more.

Back: Backs are constructed of 22 gauge steel, offset and punched to accept file dividers.

Sides: The sides are formed using 22 gauge steel with a channel formation on the front. A 1/32" on the top and the bottom which allows the top to fit flush on unit.

Top: Tops are constructed of 22 gauge steel with a box formation in the front and flange on the remaining sides.

Bottom: The bottom is made of 22 gauge steel with flanges on all four sides and punched for dividers and levelers.

Shelf: Shelves are formed of 22 gauge steel with flanges welded at the rear and ends and a box formation at the front. Shelves are punched to accept file dividers and/or a reference shelf.

Gusset: Gussets are 16 gauge steel and have two flanges for strength.

Dividers: Four black plastic dividers per shelf level are included with each unit.
